John P. Pappas, Jr.

Norelle delivers several strokes in this position, then requires Kirsten to get down off her perch and kneel on a small stool, buttocks sky-high over her cold marble table. The vicious punisher keeps up a constant disparaging harangue whilst utilising her wickedly smarting cane with amazing energy. It is flagellation ad infinitum intended to create maximum suffering - this degree of severity being called for by Kirsten's unmitigated misbehaviour over a long period... and the impossibility otherwise of reforming her. Kirsten's boyfriend unfortunately returns prematurely, and he too subscribes to 'an eye for an eye'.
